

Let's Turn Off Your Pop Up Blocker

Peerlytics Infection Management & ABX Stewardship is a web based software service allowing you to access the tool anywhere. To make sure you can make the most out of producing reports and using your mapping technology, ensure your browser pop up blocker is allowing the full permission to the Peerlytics site. Follow instructions below:

1. Find the  in the right corner of your GoogleChrome browser
2. Select Settings
3. Select Privacy and security
4. Select Site settings
5. Select Pop ups and redirects
6. Choose the appropriate action based on administrative settings & add your Peerlytics URL

The screenshot shows the 'Pop-ups and redirects' settings in a browser. Under 'Default behavior', the option 'Sites can send pop-ups and use redirects' is selected and circled in red. Below this, under 'Customized behaviors', there are two sections: 'Not allowed to send pop-ups or use redirects' and 'Allowed to send pop-ups and use redirects'. Each section has an 'Add' button, with the 'Add' button in the 'Allowed' section also circled in red.
