

Visitors STOP at Nurses' STATION

BEFORE ENTERING THIS ROOM:

Visitors: Please see staff to find out how you can help protect yourself and others.

Staff: 1. Hand hygiene: before & after patient/resident contact, after contact with objects and surfaces in the patient/resident's immediate vicinity, and after removing gloves

2. Gown and gloves: wear upon entering room and discard before leaving room

3. Noncritical care equipment: disposable single-use or patient/resident-dedicated equipment

Contact Precautions

Questions? Please call ASK!
